OPERATIONS POLICY FOR SUPERIOR GRAPHITE STOCKVIK

Superior Graphite consistently delivers high-quality carbon and graphite materials with unique particle size and the correct morphology. The products have a high and uniform quality to meet the most sensitive customer requirements.

Our vision is to produce products fulfilling customer's needs and expectations in an environment where everyone in the organization shares a commitment to improve safety, health, environmental and quality performance.

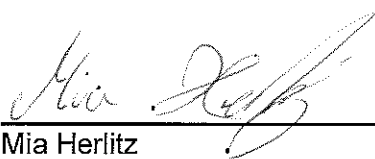

We conduct our business with respect and care for the safety and health of people - whether they be employees, customers or citizens, including taking preemptive measures to prevent accidents and illness.

We monitor the development of our customers needs and expectations, and adjust our products and processes accordingly.

We show consideration for ecological factors, prevent pollution and strive to minimize negative environmental impact from our activities with focus on air emissions, energy use, logistics and production of hazardous waste.

To achieve this policy we:

- ☐ *identify risks associated with safety, health, environment and quality matters*
- ☐ *deal in a systematic way with safety, health, environment and quality issues*
- ☐ *strive for inclusiveness through transparency and open communication*
- ☐ *are committed to comply with all applicable laws, regulations and standards*
- ☐ *work on continual improvement in all our processess*
